Education + Experience = Employment

91% of 2016 graduates secured employment in their field of study.

Practicum

The practicum is the final course in most post-degree programs. It is the culmination of your work in the classroom and the bridge to a great career in your target industry.

Through the practicum, you will gain valuable hands-on experience, a strong network of industry contacts and an edge in the job search process.

What our graduates are saying

“I am very happy about my decision to take the Human Resources program at Western Continuing Studies! This program allowed me to fulfill my passion for helping people and gave me the skills to think strategically in a business environment. My practicum further solidified that I want to be in Human Resources and allowed me to explore the different functions of HR. The opportunity to be at a company that values knowledge transfer, transparency, continuous learning, and the internship program as a whole has really given me the tools I need to enter the profession, and I will be forever grateful for that.”

“Working one-on-one with the Practicum Coordinator, you will develop a strong resume, improve your interview skills and secure a practicum site that matches your career goals. We have a strong history of partnering with recognized organizations in London, across Canada and beyond.

“I am very happy about my decision to take the Human Resources program at Western Continuing Studies! The opportunity to be at a company that values knowledge transfer, transparency, continuous learning, and the internship program as a whole has really given me the tools I need to enter the profession, and I will be forever grateful for that.”

“The Public Relations post-graduate program was one of the best academic decisions I’ve ever made. Having professionals as instructors helped tremendously to mold me from a Criminology student to a Public Relations and Communications professional. The ability to create and set my own goals for my four-month practicum at The Hospital for Sick Children (SickKids) allowed me to take control of my learning experience while also learning everything I possibly could at this large organization.”

“I’m so glad that I decided to take the Occupational Health and Safety Management (OHSM) Program. My instructors and practicum mentor were very supportive and provided real-world industry experiences that helped prepare me for my career. The combination of theory-based and practical learning that takes place in the OHSM Program helped me to develop the skills I use on a daily basis in my current position as a health and safety professional.”

#Degree2Career in One Year!

Our Post-Degree Diploma Programs are designed to provide you with specialized knowledge, skills and experience. Diploma programs complement undergraduate degrees and enable you to differentiate yourself in the job search process.

Education – Learn from industry experts in small classes with a focus on networking, collaboration and professional development.

Experience – Develop your potential through experiential learning inside and outside the classroom. Engage with professionals in the field, and apply your knowledge through a practicum in your target industry.

Employment – Graduated with the knowledge, skills and abilities required for success.

91% of our 2016 graduates secured employment in their field of study within one year of completing their programs.

On the Cover

Aira Guerrero, Not-for-Profit Management Graduate 2017

“The Not-for-Profit Management diploma program was the greatest decision I made after graduating. I learned about the growing potential and tremendous impact that nonprofits have in our daily lives and the countless career opportunities in this sector. This knowledge was enhanced during my practicum. I was fortunate enough to work with a dynamic and well respected organization, London Community Foundation, which introduced me to various professionals, in both the not-for-profit and for-profit sector. The skills and experience I gained from the program and my practicum are ones that will benefit me in any future career, and ones I will keep forever.”

Post-Degree Diploma Programs

**Clinical Trials Management**

**ONLINE | SEPTEMBER START**

This dynamic field of study provides science-based graduates with an opportunity to enter the field of clinical trials management. Working in medical or educational institutions, as well as research laboratories, often requires managing a clinical trial. Clinical trials managers oversee all aspects of the trial, including patient recruitment, study implementation and close out. This program will provide learners with the skills needed to contribute to positive changes within the medical field.

- Full-time, 9 req. courses, 400-hour practicum
- Background: Undergraduate degree in health sciences, science, or nursing
- Cost: $6900*
- Eligible for OSAP

**Computer Science**

**MAIN CAMPUS | SEPTEMBER START**

This eight-month program offered in partnership with Western’s Department of Computer Science will provide you with the knowledge and skills needed for designing and developing software. The ideal candidate is a creative, critical thinker interested in honing these fundamental skills to make effective use of computing technologies in their domain expertise.

- Full-time, 10 req. courses
- Background: Undergraduate degree in mathematics, statistics, science or engineering; plus the completion of prerequisite courses CS1026 and CS1027
- Cost: Each course equivalent to Year 4 tuition*
- Eligible for OSAP

**Human Resources**

**BLENDED | SEPTEMBER START**

Human Resources professionals serve an important function within all organizations. Working in the public, non-profit and private sector, HR practitioners ensure that employee rights, legislation and internal procedures are effectively communicated and upheld within an organization. The ideal candidate has a passion for business management, strong interpersonal skills, values ethics and integrity, and upholds a high degree of professionalism.

- Full-time, 10 req. courses, 560-hour practicum
- Background: Undergraduate degree
- Cost: $6500*

**Marketing**

**DOWNTOWN CAMPUS | SEPTEMBER START**

Working in a variety of roles across multiple sectors, professional marketers seek to create value for both customers and organizations. From research to brand management, this dynamic field of study provides an exciting opportunity for students from a range of academic backgrounds.

- Full-time, 10 req. courses, 560-hour practicum
- Background: Undergraduate degree
- Cost: $6500*

**Occupational Health & Safety Management**

**DOWNTOWN CAMPUS OR ONLINE | SEPTEMBER START**

Managing the occupational health and safety function in the workplace requires an understanding of a broad range of areas, including legislation, workplace hazards and occupaational illnesses, evaluation and control techniques, and managing and promoting workplace safety and wellness.

- Full-time, 10 req. courses, 560-hour practicum
- Background: Undergraduate degree
- Cost: $7800*
- Eligible for OSAP

**Pedorthics**

**ONLINE | SEPTEMBER START**

Pedorthists are certified healthcare professionals with specialized education and training in the care of lower limbs through observation of surface anatomy, palpation, gait, and range of motion. Pedorthists are also trained in the manufacturing, fitting, and modification of foot orthoses and footwear for the purposes of alleviating painful or debilitating conditions of the lower limbs.

- Full-time, 7 req. courses, 3 full-time practicums
- Background: Undergraduate degree in kinesiology
- Cost: $8000*
- Eligible for OSAP

**Public Relations**

**DOWNTOWN CAMPUS | MAY START**

Working for all types and sizes of organizations, public relations practitioners focus on the communication between organizations or clients and the public. Industry experts provide students with theoretical and hands-on learning covering topics such as media relations, research and evaluation, design, and event management. The ideal candidate has strong communication skills, including writing and public speaking, and is a creative, critical thinker who enjoys the idea of influencing the way people think.

- Full-time, 10 req. courses, 560-hour practicum
- Background: Undergraduate degree
- Cost: $7800*
- Eligible for OSAP
